Time	Linke Pirouette	Rechte Pirouette	Grosse Reitschule	Kleine Reitschule	Courbette	Capriole	Croupade	Levade
08.30	Welcome							
08.45	KEYNOTE: Building an evidence base for chronic illness management: the example of chronic wounds <i>Nicky Cullum, United Kingdom</i>							
10.00	Nursing Managers Enabling Competence in Evidence-Based Nursing Practice <i>Anneli Sarajärvi, Finland</i>		Breaking the Taboo: Empowering health and social service professionals to combat violence against older women within families <i>Charlotte Strümpel, Austria</i>	Nurses management of urinary incontinence following stroke <i>Joanne Booth, Scotland</i>	10.00 - 13.00 SYMPOSIUM From the Myth of Cure to the Reality of Care <i>Janette Barrie, Scotland, Co-Authors: Trudi Marshall, Pauline Banks</i> Paper 1: Keep Well Paper 2: Supported Self Care Paper 3: Integrated Care Management Paper 4: Intermediate Care Capabilities	11.30 - 13.00 WORKSHOP Evidence based smoking cessation practices <i>Erika Froelicher, USA</i>	10.00 - 13.00 WORKSHOP Basics of Mixes Methods Research <i>Mary Beth Happ, Pittsburgh, USA</i>	11.30 - 13.00 WORKSHOP Surviving a PhD <i>Lorraine Smith, United Kingdom</i>
10.30	The introduction of evidence-based practice in acute stroke assessment: a realistic evaluation <i>Sharon Hamilton, United Kingdom</i>	Supported Socialisation for People with Enduring Mental Illness, A Randomised Controlled Trial. <i>Ann Sheridan, Ireland</i>	Chronic infectious diseases: The contribution of nursing students' knowledge and health locus of control to their comfort and willingness to treat the patients. <i>Maika Fradkin, Israel</i>					
11.00	Break	Break	Break	Break				
11.30	Tailoring care of people with type 2 diabetes by using instruments: Empowerment approach in a randomized controlled trial <i>Arun K. Sigurdardottir, Iceland</i>	The long-term experience of living with peripheral arterial disease and the recovery following revascularization: A qualitative study <i>Christine Wann-Hansson, Sweden</i>	Establishing the evidence base for an effective support programme for patients with congenital heart disease <i>Ashi Firouzi, United Kingdom</i>	Patients' experiences after renal transplantation <i>Elisabeth Seidl, Austria</i>				
12.00	The lived experience of a chronic illness: Challenges, dialogues and negotiations in adherence and non-adherence (a phenomenological study from the perspective of the person with diabetes) <i>Brynja Ingadottir, Iceland</i>	The essential structure of patients' experience of rehabilitation with emphasis on their self reported needs in the context of rehabilitation <i>Jonina Sigurgeirsdottir, Iceland</i>	Can nursing interventions relieve depression Symptoms after myocardial infarction – experiences of recovery <i>Olli Oranta, Finland</i>	Challenges in helping patients in wait for a liver transplant <i>Ida Torunn Bjork, Norway</i>				
12.30	Diabetes nurses and patients opinions of using self-monitoring of blood glucose in primary health care- focus on guidelines, prescriptions and cost of test-strips <i>Anna-Karin Schöld, Sweden</i>	Illness Representations and Maintenance of Positive Health Behaviour: a comparison of adults with different levels of attendance at a cardiac rehabilitation programme <i>Elizabeth Tolmie, United Kingdom</i>	The experience of living with husbands with coronary heart disease <i>Patricia Bradley, Canada</i>	The lived experience of waiting: A study with persons who are on a waiting list for a lung transplant <i>Rahel Naef, Switzerland</i>				
13.00	Lunch	Lunch	Lunch	Lunch				
14.00	Creation and adequate use of performance indicators for the vulnerable elderly: Three years of experience in the Netherlands <i>M.E.W. Melchior, Netherlands</i>	Mothers of children with chronic illness – Managing everyday life <i>Christa Bükler, Germany</i>	Effects of pulmonary rehabilitation on fatigue, functional status and health in patients with chronic obstructive pulmonary disease <i>Kersti Theander, Sweden</i>	Glycemic Control and Family Interventions <i>Babak Motamedi, Iran</i>				
14.30	Care dependency of patients – a comparison of patients' and nurses' perspectives <i>Juliane Eichhorn-Kissel, Austria</i>	Working caregivers – Challenges and solutions from family caregivers' and employers' perspectives <i>Iren Bischofberger, Switzerland</i>	Young Carers in Germany: to live on as normal as possible <i>Sabine Metzger-Blau, Germany</i>	Advanced nursing practice home visiting programs for persons who are eighty years or older and their families: Current knowledge <i>Rahel Naef, Switzerland</i>				
15.00	Urinary Incontinence and Care Dependency of German nursing home residents <i>Gabriela Schmitz, Germany</i>	N.N.	Development and implementation of evidence based family oriented support for young carers and their families: challenges for methods and content <i>Jörg große Schlamann, Germany</i>	Meeting the needs of individuals with long term conditions in the community: what motivates and enables professionals to provide 'good' care? <i>Fiona Ross, United Kingdom</i>				
15.30	Break	Break	Break	Break				
16.00	Independence/dependence – A Contradictory Relationship? Life with a Chronic Illness <i>Charlotte Delmar, Denmark</i>	Elaboration of collaborative concept mapping in therapeutic education with a group of diabetic patients: educational interest <i>Jean-Pierre Michaud, Switzerland</i>	Post Discharge 'Brief Intervention' increases the frequency of alcohol abstinence – A Randomized Trial of Patients Admitted to Somatic Care with Harmful Use of Alcohol <i>Palle Bager, Denmark</i>	Use of fall prevention guidelines in German hospitals <i>Antje Tannen (Cornelia Heinze), Germany</i>				
16.30	Methodological and Conceptual Issues in Translating the Educational Needs Assessment Tool for Rheumatoid Arthritis Patients into 4 European Languages <i>Claire Hale, United Kingdom</i>	Methodological Approach to Update and Refine Two Scales that Measure Diabetes Self-Efficacy and Diabetes Self-Care <i>Valmi Sousa, USA</i>	Health related quality of life of family caregivers of people with Alzheimer's disease in early phase of caregiving <i>Tarja Välimäki, Finland</i>	Osteoporosis and fragility fractures in the elderly ask for multidisciplinary, coordinated approach: The Basel Fragility-Fracture-Program and preliminary results <i>Manuela Pretto, Switzerland</i>		16.00 - 17.30 WORKSHOP Writing for journals <i>Blackwell Publishing</i>		
17.00	Nursing Science and Nursing Practice. What are the nurses' attitudes, knowledge and wishes as to nursing research and research utilization? <i>Helga Elisabeth Breimaier, Austria</i>	Balancing power in Learning and Mastery Centres: A collaboration between experienced users and professionals in patient education <i>Anita Strom, Norway</i>	Nursing development in Nursing Homes for Persons with Dementia (MeDiA in Cura) <i>Ruth Schwerdt, Germany</i>	Research utilization in the Czech Republic: promoting the development of fall-prevention programs <i>Petra Mandysova, Czech Republic</i>				

Thursday, September 4, 2008

Time	Linke Pirouette	Rechte Pirouette	Grosse Reitschule	Kleine Reitschule	Courbette	Capriole	Croupade	Levade
08.45	KEYNOTE: Nursing research in times of evidence-based healthcare: The end of methodological arguments <i>Wilfried Schnepf, Germany</i>							
10.00	Primary Health Care Nurses – Uptake of Evidence-based Cardiovascular Risk Assessment and Management <i>Ann McKillop, New Zealand</i>		Prevalence and evolution of symptom experience over three months in outpatients with cancer receiving chemotherapy <i>Elisabeth Spichiger, Switzerland</i>	Functional status changes during ospedalization: searching predictors <i>Marco Tomietto, Italy</i>			10.00 - 13.00 SYMPOSIUM Nursing Care Delivery Systems: Measurement and Patient Perception <i>Leaders & Chair: Johanna Feuchtinger, Germany and Christoph Abderhalden, Switzerland</i>	10.00 - 11.30 WORKSHOP Obesity and the contribution of nursing research <i>Kirsten Lomborg, Denmark</i>
10.30	Translation and validation of the Portuguese version of the 'Consequences of Care Index'® <i>Catarina Isabel dos Reis Silva Garcia, Portugal</i>		The Construction of Illness Related Knowledge by Prostate Cancer Patients <i>Sirkku Rankinen, Finland</i>	Privacy in home health care from the viewpoint of a patient – Findings from the phase one of the PhD study <i>Maarit Kinnunen, Finland</i>			Presentation 1: IzEP® – Measuring of changes in nursing care delivery systems <i>Christiane Schaepe, Germany; Elisabeth Schori, Switzerland</i>	
11.00	Break	Break	Break	Break				
11.30	Across-method triangulation – a critical view on theory and practice of combining qualitative and quantitative research methods <i>Hanna Mayer, Austria</i>	The lived experience of nurses working in a French general hospital when the question of bad of news disclosure to a cancer patient emerges <i>Christophe Debout, France</i>	The meaning of fatigue for women with multiple sclerosis <i>Malin Olsson, Sweden</i>	„Insufficient evidence of effectiveness“ is not the same as „evidence of no effectiveness“ computer-based education for persons with severe mental illness <i>Ania Willman, Sweden (Peter Stoltz, Sweden)</i>		11.30 - 13.00 WORKSHOP Assessment of Depression Patients with Coronary Heart Disease <i>Erika Froelicher, USA</i>		
12.00	Breaking barriers through challenging routines in research ethics. Perspectives from Austria, Germany and Switzerland <i>Sabine Pleschberger, Austria</i>	Effective Psychosocial Interventions for Couples living with Cancer: Results of a Literature Review <i>Ada-Katrin Busch, Switzerland</i>	Constructions of care by older people who have fallen <i>Sheila Donovan, United Kingdom</i>	Results from therapy for patients with treatment resistant depression: CPT therapy provided by trained nurses as well as other therapists <i>Sylvia Ingibergsdóttir, Iceland</i>			Presentation 2: Primary nurses without Primary Nursing? <i>Christoph Abderhalden, Kerstin Schumann, Switzerland</i>	11.30 - 13.00 SYMPOSIUM Locally developed interventions for childhood obesity in Norwegian communities <i>Gudbjorg Oen, Norway</i>
12.30	The transition from the college education to academic degree: Is there a need to change the clinical learning environment? <i>Evrídiki Papastavrou, Cyprus</i>	The impact of white lies used by cancer patients and their spouses on their management of the illness <i>Livia Kislev, Israel</i>	Old women's experiences of life after a stroke – implications for nursing practice <i>Grethe Eilertsen, Norway</i>	Hopelessness and suicidal ideation among patients with treatment resistant depression: Evaluation study of cognitive behavioural therapy on hopelessness <i>Rósa María Gudmundsdóttir, Iceland</i>			Presentation 3: What do patients really perceive from nursing care delivery systems? <i>Dr. Johanna Feuchtinger, Germany</i>	
13.00	Lunch	Lunch	Lunch	Lunch				
14.00	A Substantive Theory for persons with End Stage Renal Disease <i>Barbara Newman, Australia</i>	Nursing intervention to patients after total hip replacement <i>Britta Hordam, Denmark</i>	A Systemic Family Nursing Approach of Families of Children with Heart Defects <i>Maria do Céu Aguiar Barbieri-Figueiredo, Portugal</i>	Icelandic and American Families of Adolescents with Asthma <i>Erla Kolbrun Svavarsdóttir, Iceland</i>				14.00 - 15.30 SYMPOSIUM Patient participation in care and treatment <i>Chair & leader Kirsten Lomborg, Denmark</i>
14.30	Dimensionality, Validity, and Reliability of the Portuguese Version of the Depressive Cognition Scale <i>Valmi Sousa, USA</i>	Validation of 4 fall risk assessment tools in hospital and nursing home patients aged 65 and over: a pilot case-control study. Pordenone Working Group. <i>Cristina Tommasini, Italy</i>	Measuring the Effectiveness of Family Nursing <i>Eydis Kristin Sveinbjarnardóttir, Iceland</i>	Quality of life of adolescents with chronic disorders: an optimistic view <i>Susan Jedeloo, Netherlands</i>			14.00 - 17.00 WORKSHOP Advanced Mixed Methods Techniques <i>Mary Beth Happ, Pittsburgh, USA</i>	Paper 1: Patient participation – a concept with different meanings <i>Kirsten Frederiksen, Denmark</i>
15.00	A new model for health promotion – bridging theory and practice through a research – based program <i>Kristin Heggdal, Norway</i>	The changes in health-related quality of life of patients undergoing total hip arthroplasty for osteoarthritis <i>Liisa Montin, Finland</i>	Relationship between health promotion behaviours and quality of life for families of children and adolescent with cancer <i>Anna Sigurdardóttir, Iceland</i>	Participation of nursing specialists in observations of adolescents with chronic disorders in the outpatient department <i>AnneLoes van Staa, Netherlands</i>				Paper 2: Patient participation in fast-track programmes as seen from a patient perspective <i>Annelise Norlyk, Denmark</i>
15.30	Break	Break	Break	Break				
16.00	Disease Management in Europe. Position Paper of the European Forum for Primary Care <i>Stefan Greß, Germany</i>	The meaning of nurse's role mission in managing the nursing care situations by working with chronically ill patients <i>Vilma Zydziunaite, Lithuania</i>	Chronically ill children's participation in consultation and decision-making: stories of exclusion <i>Imelda Coyne, Ireland</i>	Participation in play activities – A single case study focusing on a child with obesity experiences <i>Lisa Skär, Sweden</i>				
16.30	Self-management of medication regimes in chronic illness – Challenges and support needs <i>Gabriele Müller-Mundt, Germany</i>	The impact of individualised nursing care on patients with chronic illness <i>Riitta Suhonen, Finland</i>	Identifying adolescents with chronic disorders at risk for self-management failure: care-related preference profiles and their distribution <i>Susan Jedeloo, Netherlands</i>	Nurses' attitudes to obesity: A survey study <i>Leonie Mosel Williams, Australia</i>		16.00 - 17.30 WORKSHOP Writing for journals <i>Blackwell Publishing</i>		16.00 - 17.30 WORKSHOP Evidence Based Nursing: an introduction for nurse researchers and nurse educators <i>Nicky Cullum, United Kingdom</i>
17.00	Adherence to therapeutic regime in patients with hypertension <i>Ines Maria da Cruz Sousa, Portugal</i>	Home health care for chronic patients: the nurse's role in informal career's voices <i>Susana Filomena Cardoso Duarte, Portugal</i>	Participatory research: adolescents with chronic disorders interviewing fellow patients about health care preferences <i>AnneLoes van Staa, Netherlands</i>	Discourses and power in a course in life-style change for patients suffering from morbid obesity <i>Ingrid Ruud Knutsen, Norway</i>				

Friday, September 5, 2008

Time	Linke Pirouette	Rechte Pirouette	Grosse Reitschule	Kleine Reitschule	Courbette	Capriole	Croupade	Levade
08.45	KEYNOTE: Translating Knowledge into Practice: The Academic-Service-Partnership as Model to promote Nursing Excellence <i>Rebecca Spirig, Switzerland</i>							
10.00	A nurse-led multidisciplinary programme to assess and treat patients with malnutrition or those at risk of malnutrition <i>Irena Anna Frei, Switzerland</i>		Social Isolation in the chronically ill elderly – Aspects for home care nursing <i>Evelin Burns, Austria</i>	The health and illness experiences of individuals diagnosed with idiopathic normal pressure hydrocephalus: a grounded theory study <i>Leslie Gelling, United Kingdom</i>		10.00 - 11.30 WORKSHOP Funding opportunities in the 7th EU Framework Programme (FP7): People, Capacities, Cooperation, Ideas <i>Dr. Ylva Huber, FFG-Austrian Research Promotion Agency, Austria</i>	10.00 - 11.30 WORKSHOP The Role of Practice Development in improving Chronic Illness management <i>Kim Manley, United Kingdom</i>	10.00 - 10.30 Connectedness, Belonging and Feelings about School among Healthy and Chronically Ill Icelandic School Children <i>Erla Kolbrun Svavarsdottir, Iceland</i>
10.30	Malnutrition and associated factors among elderly residents in Nursing Home: an Italian descriptive cross-sectional study <i>Carla Papparotto, Italy</i>		Does a primary support person make a difference? Symptom experience in HIV-infected individuals. <i>Katharina Fierz, Switzerland</i>	Using Participatory Action Research Techniques as a Qualitative Methodology <i>Regina Joye, Ireland</i>				10.30 - 11.00 Evaluation of the Solihull Approach with children 0-5 years with three Icelandic Health Care Centers compared to traditional nursing care <i>Marga Thome, Iceland</i>
11.00	Differences in pressure ulcer prevalence between the Netherlands and Germany – impact of personal risk factors and institutional quality indicators <i>Antje Tannen, Germany</i>		Negotiations – the relationship between formal and informal care in home care arrangements <i>Andreas Buescher, Germany</i>	Mental illness: a definition by Greek secondary school pupils <i>Evanthia Sakellari, Greece</i>				11.00 - 11.30 N.N.
11.30	Break							
12.00	FINAL KEYNOTE Patient Safety, Nursing Interventions and Patient Outcomes <i>A. J. Mintjes-De Groot, Netherlands</i>							
13.00	Closing Ceremony							

Scientific committee

National scientific committee

Christa Lohrmann, Hanna Mayer, Jürgen Osterbrink, Elisabeth Seidl, Christa Them

WENR Steering Group

May Solveig Fagermoen, Norway; Elisabeth Rappold, Austria; Margot Sieger, Germany; Cecilia Sironi, Italy; Lorraine Smith, United Kingdom; Rebecca Spirig, Switzerland; Vilma Zydunaite, Lithuania;

Organisation committee

Ursula Frohner, Ingrid Leskovich, Elisabeth Marcher, Elisabeth Rappold, Margarethe Strümpf

Poster presentation

Wednesday and Thursday from 2 p.m. till 3.30 p.m.

Meet the profs

Time schedule provided at the conference

Industrial exhibition

During the breaks you have the possibility to visit the exhibition. The sponsors and exhibitors are pleased to welcome you.

Social Programme (Included in conference fee)
