**THE AMERICAN NURSES ASSOCIATION ELECTS KAREN DALEY**

*ANA delegates elect officers, board members and other leaders at 2010 House of Delegates Meeting*

**SILVER SPRING, MD** – Delegates of the American Nurses Association (ANA), elected Karen Daley, PhD, MPH, RN, FAAN, of Boston, Massachusetts, to serve a two-year term as president of ANA, the nation's leading professional nursing organization representing the interests of the nation's 3.1 million registered nurses. Daley and other nurse leaders were elected during the ANA House of Delegates biennial meeting, which was held June 16-19 in Washington, D.C.

President Daley is a past president of the Massachusetts Association of Registered Nurses (MARN) and the Massachusetts Center for Nursing. She served as a member of ANA's Board of Directors (2008-2010) and as a director of the American Nurses Credentialing Center (ANCC).

Looking to the future, President Daley called for nurse delegates to move forward with a newly energized commitment to the work of nursing. "We have exciting and challenging work ahead," said Daley. "As an association and profession, we must draw on the strength of our values – for the challenges that we face may have changed, but the things that we believe in do not."

President Daley holds a diploma in nursing from Catherine Laboure School of Nursing, a bachelor's of science in nursing from Curry College, a master's of public health from Boston University School of Public Health, and a master's in science from Boston College. In addition, she earned a doctoral degree from Boston College.

President Daley spent her nursing career as a front-line caregiver and staff nurse at Brigham and Women's Hospital in Boston where she began her career in 1973; she served as a senior staff nurse in Brigham and Women's emergency department until January 1999. Since that time, while continuing her role as a state association president, she became actively engaged as an advocate for legislation to mandate use of safer

needle devices in health care practice settings. Daley was among those invited to the Oval Office to witness President Clinton sign the "Needlestick Safety Prevention Act," into law on Nov. 6, 2000, legislation advocated for by ANA. In addition, she has been recognized with numerous awards for her outstanding leadership and excellence in practice. In 2006, Daley was recognized as a living nursing legend by the Massachusetts Association of Registered Nurses, and was inducted as a fellow into the American Academy of Nursing in recognition of the national and international impact of her needlestick injury prevention advocacy.
