2016 American Nurses Association Annual Conference
Concurrent Sessions

Session Type

Panel Sessions
Take a deeper dive into one topic with a panel session featuring three 10-minute presentations, followed by a facilitator-guided discussion and Q&A with the audience.

Walking CE Sessions
Presenters will walk the walk and talk the talk during this active and interactive session. Take a stroll and learn about current innovations and technologies in this non-traditional format.

Paper Sessions
Learn from real-world best practice! Each of the two topics will be presented for 20 minutes, followed by 20 minutes of Q&A with the audience.

Invited Sessions
Learn from leaders in the field! These concurrent sessions were recruited by ANA to bring you the latest and greatest in quality, safety and staffing.

Virtual Sessions
CE while you wait for a ride! Conference attendees have the flexibility of substituting up to 2.25 hours of in-person CE with recorded CE programs.

Track Guide

Research
Cover the latest health care research focused on nursing quality, staffing and work environment, innovation in delivery of nursing care services, and much more.

Innovation & Technology
Focus on non-traditional or out-of-the-box strategies or technological advances that affect nurses and/or interprofessional team members in any health care practice setting.

Practice
Focus on actions implemented by nurses to facilitate nursing practice improvements based on opportunities identified or in response to regulatory requirements.

Work Environment
Center on actions implemented by nursing staff and leaders to facilitate positive, professional nursing work environments that promote autonomy of nursing practice and decision-making, the health and safety of the nurse, and optimal patient and nurse outcomes.
