

Order Your Commemorative Ornament

only \$16.00

The holiday season is a special time to commemorate symbols which embody the essence of the previous year and the year to come. By joining the symbolic nurses' lamp with "Nurses Care" and "Voice for the Patient," this ornament captures the true message of the nursing profession.

The lamp, first depicted by Florence Nightingale, is traditionally recognized as the vigilance of nursing, the diligent watch over the patient and ward. By caring for and serving as a voice for all patients, nurses are unified in their profession whether as leaders or supporters.
