# Faith Community Nursing

Scope and Standards of Practice

4th Edition

The American Nurses Association (ANA) and Health Ministries Association (HMA) are national professional association. This publication reflects the position of ANA and HMA regarding the scope and standards of nursing practice and should be reviewed in conjunction with state board of nursing regulations. State law, rules, and regulations govern the practice of nursing, while *Faith Community Nursing: Scope and Standards of Practice, 4th Edition* guides registered nurses in the application of their professional skills and responsibilities.

### About the American Nurses Association

The American Nurses Association (ANA) is the only full-service professional organization representing the interests of the nation's 5 million registered nurses through its constituent/state nurses associations and its organizational affiliates. The ANA advances the nursing profession by fostering high standards of nursing practice, promoting the rights of nurses in the workplace, projecting a positive and realistic view of nursing, and by lobbying the Congress and regulatory agencies on healthcare issues affecting nurses and the public.

American Nurses Association 8403 Colesville Rd., Ste. 500 Silver Spring, MD 20910

### About the Health Ministries Association

Health Ministries Association (HMA), is the recognized professional membership association for the nursing specialty of faith community nursing and promotes education, research utilization, and evidence-based practice.
