

Adult-Gerontology Acute Care Nurse Practitioner (AGACNP -BC™) Board Certification Examination Test Content Outline

Effective Date: March 17, 2025

This test content outline lists the knowledge and skills identified as being important for the role, as determined by the most recent role delineation study. The number of questions in each of the major categories of the scored portion of the examination are shown below.

Note: The examples in parentheses are not all-inclusive and do not indicate importance but are simply to provide clarification and guidance for studying.

There are **175 questions** on the examination. Of these, **150 are scored questions** and **25 are pretest questions** that are not scored. Performance of pretest questions is evaluated and used to determine if they will be used in the scored portion of the examination. The pretest questions cannot be distinguished from those that will be scored, so it is important for a candidate to answer all questions. A candidate's score, however, is based solely on the 150 scored questions. Performance on pretest questions does not affect a candidate's score.

CONTENT DOMAIN	NUMBER OF QUESTIONS	PERCENTAGE
I. Core Competencies	36	24%
II. Clinical Practice	65	43%
III. Professional Role	49	33%
TOTAL	150	100%
