

## Satisfaction with Various Aspects of the Symposium

## Participant Testimonials

"I felt both **inspired** and **informed** at the Research Symposium. The speakers provided insight into **research methods**, processes to create and sustain **scholarly inquiry**, and overviews of the results of their various studies."

- Nursing Director, Clinical Nurse Specialist, and PhD Student

"The ANCC Research Symposium provided me the framework and concepts so I can individualize the application in our institution. I am so **inspired** to revitalize our EBP/ Research Council and **advance** our culture of inquiry."

- Director of Professional Practice/EBP/Research

"The ANCC Research Symposium provides a **great opportunity** to **enhance research process** and **systems knowledge** and to **network** with colleagues who are on similar journeys. Take advantage of this wonderful opportunity to grow your research capacity and/or capabilities."

- Associate Chief Nursing Officer, Research and Innovation

## Top Three Favorite Symposium Events

- 1 Opening Keynote: Dr. Matthew McHugh
- 2 Nursing Research and EBP-QI Research
- 3 Networking Lunch
