

The **American Nurses Foundation** is the only philanthropic organization with a mission to improve health care and support the 3.6 million nurses across the United States. To help bring the power of nursing to health care, visit [www.givetonursing.org](http://www.givetonursing.org).

## Donations to the Foundation make a powerful impact:

### THE AMERICAN NURSE

*The American Nurse: Healing America* documentary is a "love letter" to nursing and a powerful tool for reengaging and inspiring nurses, especially aided by the Foundation's academic and clinical guides. Proceeds from the movie support scholarships for nurses across the nation.

*"This film should be seen by every student and practitioner in health care. It captures how patients want to be treated and why patients say—year after year—that nurses are the most trusted professionals. The new guide makes it easy to incorporate the film into academic and professional education."*

**Joyce J. Fitzpatrick**  
PhD, MBA, RN, FAAN

### NURSES ON BOARDS INITIATIVE

Our work is a part of the national effort to increase the number of nurses governing in the health care arena. We focus on national corporate boards in the nonprofit, for-profit, and philanthropic arenas.

[www.nurseboardleadership.org](http://www.nurseboardleadership.org)

*"An organization's board of directors is critical to its success. Nurses can add value to every conversation and decision in the boardroom."*

**Marian Shaughnessy**  
MSN, RN

### POST-TRAUMATIC STRESS DISORDER TOOLKIT

The PTSD interactive website and new application are designed to help civilian registered nurses (RNs) better assess and treat PTSD in the nation's veterans and military service members.

LEARN MORE AT  
[www.nurseptsdtoolkit.org](http://www.nurseptsdtoolkit.org).  
*The app is free on the Google Play and iTunes stores.*

*"It is depression, it is anxiety, it is low frustration tolerance."*

**Brian McMillion**  
MSN, MBA-HCM, RN  
Discussing the effects PTSD has on his patients' lives

### NURSING RESEARCH GRANTS

The Nursing Research Grants Program supports scientific research for advancing the practice of nursing, promoting health, and preventing disease.

*"I am so grateful to have been part of research that could help kids like Quinnie. Knowing that nurses like Amanda are committed to changing how children with autism communicate pain means more than I can say."*

**Summer Hancock**  
Mother of Quinn Hancock, who participated in nurse Amanda Brown's research study regarding pain assessment in children with autism

## Donations to these three funds at the 2016 Magnet Conference will make a lasting impact.

### HONOR A NURSE

The Honor a Nurse program, sponsored by Lippincott Solutions, makes sure nurses know they are respected and valued.

*"Being nominated by Dr. Feldman makes me feel proud of my journey as a nurse."*

**Jacqueline Alleva**  
RN

American Nurses Foundation  
Nurse Honoree

### MARGARET L. MCCLURE NURSING CARE ENDOWMENT FUND

This fund supports research and other projects focused on the delivery of nursing care, including quality improvement projects originating at clinical institutions.

### VISIT THE BOOTH TO FIND OUT MORE ABOUT THIS NEW FUND!

Created in 2016, the fund honors Margaret L. McClure, one of four researchers who produced the original Magnet® research study. Dr. McClure is internationally recognized as a nursing leader and co-editor of *Magnet Hospitals Revisited: Attraction and Retention of Professional Nurses* (ANA 2002).

### MARGRETTA MADDEN STYLES CREDENTIALING RESEARCH FUND

This fund supports research on the impact of credentialing programs in nursing for patients, nurses, and health care organizations.

*"After having worked at a Magnet® hospital, I wanted to explore whether that label was meaningful. I also wanted to highlight the value that nurses can provide at Magnet hospitals."*

**Amy Witkoski Stimpfel**  
PhD, RN

2012 Award Recipient
