Hannah Alexanderq	Cornelius E. Neufeld	
All Nurses	Judith Schmidt	
Daniel Allain	Greg Friesz	Dan - Not to be sappy :-), but when the ANA sent this, I knew right off who I would want to recognize - no person has had more of an influence on my career than you. Not sure where I would be or what I would be doing if you had not called me out to Visalia in 2002 (!) and advocated for me with Nan to manage 4N. I have an entire "Central Valley family" out there that I still talk / text to multiple times a week as a result - you would not believe the phone calls, emails, texts, and letter & cards I received from my KD family when my mom passed away 6 months ago. That hospital still is, and always will be, my gold standard for what a nursing workplace should be. The experience I received in my 7 years at KD turned out to be more valuable here in TX than I could ever imagine. That decision to come work at KD all those years ago is still having an impact on me and my family to this day. This looked like a great opportunity to tell you a "thank you" for everything - it was a privilege to work for such an excellent nurse leader. (And I would like to share that I have finally learned to say "no" more often than not!)
Shauna Allen	Debra Allen	
Susan Amundson	Faith Jones	You have an amazing team of ICU nurses. Those who cared for my husband in the unit as well as members of your staff who floated to 3S and cared for him there. They were all amazing and I know that floating is not always on the top of a nurse's wish list but every one that we encountered was amazing. Please extend a special shout out of thanks to Marcus, Beth, Mandy, and Danielle who cared for him in the unit and Katie, Renee, and David who cared for him on 3S. You have a great team!!
Teresa Anderson	Douglass Haas	Terry, You have always been my biggest fan (excluding my mother) - you are at times just like her! Your mentoring these years with NNA have meant the world to me and I truly know I would not be the leader I am today without your support! I look forward to our future endeavors and just wanted to tell you, from the bottom of my heart, THANK YOU!

Bettye Halbert, CNO (ret.)	1LT Peter Gray, BSN, RN, PNII	Dear Ms. Halbert, Twenty-five years have elapsed since I last found myself in your presence. However, yours and your nurses from quarter of a century ago left an indelible mark, impression on me and are ever present in my thoughts and prayers. Wanting to make a meaningful contribution to society after a near 20-year career in business, I carefully reflected on my employment at OCH. My time there during your leadership would become the very reason I chose to become a Public Health nurse and recently, an Army nurse. Little did I know at the time that the groundwork was being laid for life of service. Little did I know that your interactions with me would have a lasting, lifelong impression (at the time, I served as an EMT and orderly). Ms. Halbert, thank you for exhibiting the model, image of nursing that I now strive to emulate to our peers and present to the public. Sincerely, 1LT Peter Stewart Gray, BSN, RN, PNII

You always make time for questions and consultation, generously share knowledge and resources, support your colleagues, with a wonderful combination of passion and humility stand up and speak up for what is right, and you take care of yourself (this is not a small thing!). I hope you know and understand what a difference you make.
