INDEPENDENT AUDITORS' REPORT

Board of Trustees
American Nurses Foundation, Inc.
Silver Spring, Maryland

We have audited the accompanying financial statements of the American Nurses Foundation, Inc. (the "Foundation"), which comprise the statements of financial position as of December 31, 2014 and 2013, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of American Nurses Foundation, Inc. as of December 31, 2014 and 2013, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

**AMERICAN NURSES FOUNDATION, INC.
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

The American Nurses Foundation, Inc. (the Foundation) was established in 1955 as the scientific research, educational and charitable affiliate of the American Nurses Association, Inc. (the Association). The Foundation's main purpose is to provide grants to support education and research in areas affecting registered nurses, patient care, and health care, generally.

The Board of Trustees of the Foundation is appointed by the Board of Directors of the Association. The two organizations are affiliated through the ANA Board of Directors serving as the Members of the Foundation.

Income Tax Status

The Foundation is exempt from Federal income taxes on its exempt purpose activities under section 501(c)(3) of the Internal Revenue Code and is classified as other than a private foundation by the Internal Revenue Service. No provision for income tax is required for 2014 and 2013.

The Foundation adopted the income tax standard for uncertain income tax positions. The Foundation evaluated its tax positions and determined that its positions are more-likely-than-not to be sustained on examination. The Foundation's income tax returns are subject to review and examination by federal and state authorities.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Foundation considers all highly liquid instruments, which are to be used for current operations and which have an original maturity of three months or less, to be cash and cash equivalents. All other highly liquid instruments, which are to be used for the long-term purposes of the Foundation, are classified as investments.

Receivables

The receivables are stated at their net realizable value. Receivables past due are individually analyzed for collectability. When all collection efforts are exhausted, the receivable is written off against bad debt expense. Management estimates that all receivables are fully collectible.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value of Financial Instruments

Fair Value Measurements

The Foundation accounts for a significant portion of its financial instruments at fair value or considers fair value in their measurement. The Foundation accounts for certain financial assets and liabilities at fair value under various accounting literature.

Fair Value Hierarchy

The Foundation has categorized its financial instruments, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

Financial assets and liabilities recorded on the statements of financial position are categorized based on the inputs to the valuation techniques as follows:

Level 1

Financial assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the Foundation has the ability to access.

Level 2

Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following, among others, quoted prices for similar assets or liabilities in active market or non-active market.

Level 3

Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

Property and Equipment

Property and equipment are stated at cost. Acquisitions greater than \$1,000 are capitalized and then depreciated using the straight-line method over the estimated service lives of the assets (three to ten years).

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net Assets

To ensure the observance of limitations and restrictions placed on the use of resources available to the Foundation, its net assets and revenue have been classified into net asset groups based on the existence or absence of donor-imposed restrictions. The classes of net assets are as follows:

Unrestricted Net Assets

Unrestricted net assets consist of undesignated net assets and designated net assets. Undesignated net assets are funds available for the general operations of the Foundation. Designated net assets consist of unrestricted funds designated by the Board of Trustees for a specific purpose. Total Board designated net assets totaled \$369,827 and \$515,206 as of December 31, 2014 and 2013, respectively.

Temporarily Restricted Net Assets

The Foundation reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statements of activities as net assets released from restrictions.

Permanently Restricted Net Assets

Permanently restricted net assets consist of assets whose use by the Foundation is limited by donor-imposed restrictions that neither expire by passage of time nor can be fulfilled or otherwise removed by actions of the Foundation. The restrictions stipulate that resources be maintained permanently but permit the Foundation to appropriate the income generated in accordance with the provisions of the respective agreements.

Contributions and Grants

Contributions and grants are recorded as unrestricted, temporarily restricted, or permanently restricted revenue in the period received or pledged at their fair values.

Functional Allocation of Expenses

The costs of providing various program and supporting services have been summarized on a functional basis in the accompanying statements of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

Measure of Operations

The Foundation considers investment gain to be an item not included in operations.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

In preparing these financial statements, the Foundation has evaluated events and transactions for potential recognition or disclosure through June 1, 2015, the date the financial statements were available to be issued.

NOTE 2 CONCENTRATION OF CREDIT AND MARKET RISK

The Foundation maintains its cash in bank deposit accounts which may, at times, exceed federally insured limits.

The Foundation invests in a variety of investments. These investments are exposed to various risks, such as fluctuations in market value and credit risk. It is at least reasonably possible that changes in risks in the near term could materially affect investment balances and the amounts reported in the financial statements.

NOTE 3 INVESTMENTS

Investments are recorded at fair value and consisted of the following at December 31:

	(In Thousands)			
	2014		2013	
	Cost	Fair Value	Cost	Fair Value
Money Market Funds	\$ 296	\$ 296	\$ 200	\$ 200

Mutual Funds - Bonds	1,908	-	-	1,908
Total	<u>\$ 4,602</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 4,602</u>

*Money market funds are recorded at cost which approximates fair value and accordingly are excluded from the fair value hierarchy.

NOTE 4 PLEDGES RECEIVABLE

Pledges receivable consist of pledged restricted and unrestricted contributions to fund various programs as well as support for the Foundation's operations. They are deemed to be fully collectible and are reflected at either net realizable value, or at net present value based on projected cash flows. Amounts receivable in more than one year were discounted at an average annual rate of 3.25% using a rate that considers market and credit risk. No allowance for uncollectible amounts is necessary as management believes that all recorded amounts are collectible.

Pledges receivable are promised as follows at December 31, 2014 and 2013:

(In Thousands)		
	<u>2014</u>	<u>2013</u>

NOTE 6 RELATED PARTY TRANSACTIONS

The Foundation regularly carries on transactions with its related organizations. The Foundation was formed for the purpose of supporting the mission and purpose of the American Nurses Association, Inc.

American Nurses Association, Inc. (the Association)

The Association provides staff, and various other supporting services to the Foundation for which the Association is reimbursed. The administration fee for these services was \$337,914 and \$306,908 for the years ended December 31, 2014 and 2013, respectively, and is included as expenses in the accompanying statements of activities.

American Nurses Credentialing Center (ANCC)

ANCC provided funding in the amount of \$47,115 and \$43,374 for the years ending December 31, 2014 and 2013, respectively, to support programs of the Foundation.

Amounts Due from/to Related Organizations

The Foundation had total payables of \$762,006 and \$753,742 as of December 31, 2014 and 2013, respectively, to the following related organizations for administrative costs such as salaries, fringe benefits and vendor payments that benefited the Foundation at December 31:

NOTE 8 ENDOWMENT

Uniform Prudent Management of Institutional Funds Act (UPMIFA)

In April 2009 UPMIFA became effective in the State of Maryland. Under UPMIFA all unappropriated endowment fund assets are considered restricted. The Board of Trustees has interpreted the Maryland UPMIFA as requiring the preservation of the fair value of the original gifts as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, The Foundation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Foundation in a manner consistent with the standard of prudence prescribed by UPMIFA.

The Foundation's endowment investment policy is focused on preservation of capital and amounts are invested in mutual funds – equity, mutual funds – bonds, and money market funds.

Uniform Prudent Management of Institutional Funds Act (UPMIFA)

In accordance with UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund
- The purposes of the Foundation and the donor-restricted endowment fund
- General economic conditions
- The possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of the Foundation
- The investment policy of the Foundation

Return Objectives and Risk Parameters

The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Foundation must hold in perpetuity. Under this policy approved by the Board of Trustees, the endowment assets are invested in a manner with long term orientation and without undue exposure to risk. The Foundation's objective is that total investment returns shall exceed the US Consumer Price Index by five percent (5%) and that average rates of investment returns shall approximate seven to nine percent annually. Actual experience in any given year may vary from this amount.

Spending Policy and How the Investment Objectives Relate to Spending Policy

Spending rate policy will be five (5) percent. Over the long-term, the Foundation expects to allow its endowment to grow annually, consistent with the Foundation's objectives to maintain the purchasing power of the endowment assets held in perpetuity and to provide additional real growth through new contributions and investment returns.

**AMERICAN NURSES FOUNDATION, INC.
NOTES TO THE FINANCIAL STATEMENTS

NOTE 8 ENDOWMENT (CONTINUED)

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yields (interest and dividends) utilizing a strategy of fixed income and cash equivalents in a mix conducive to participation in rising markets and allowing for protection in falling markets within prudent risk constraints. In addition, the Foundation utilizes the services of experienced investment managers to achieve its objectives.

The following is a summary of endowment funds for the years ended December 31, 2014 and 2013:

	(In Thousands)		
	Temporarily Restricted	Permanently Restricted	Total
Endowment Net Assets, January 1, 2013	\$ 1,044	\$ 1,687	\$ 2,731
Investment Return	438	1	439
Contributions	70	233	303
Appropriations	(132)	-	(132)

Investment Return	172	2	174
Contributions	178	179	357

Endowment Net Assets, December 31, 2014	<u>\$ 1,599</u>	<u>\$ 2,102</u>	<u>\$ 3,701</u>

Funds with Deficiencies

From time to time, the fair value of assets associated with individual donor restricted endowment funds may fall below the level that the donor or UPMIFA requires the Foundation to retain as a fund of perpetual duration. In accordance with GAAP, deficiencies of this nature are reported in unrestricted net assets. These deficiencies result from unfavorable market fluctuations. The Foundation had no deficiencies of this nature as of December 31, 2014 and 2013.

NOTE 9 FUNCTIONAL EXPENSES

The Foundation is required to disclose its direct and indirect expenses on a functional basis. As a result, the Foundation has allocated its indirect expenses to the program and supporting services benefited based on direct cost percentages.

Fully allocated expenses, by function, are as follows for the years ended December 31:

	(In Thousands)	
	2014	2013
Program Services:		
Grant Award Programs	\$ 1,344	\$ 1,061
Total Program Services	1,344	1,061
Supporting Services:		
Fundraising	320	363
Governance, Administration and General	138	135
Total Supporting Services	458	498
Total Expenses	\$ 1,802	\$ 1,559

NOTE 10 COMMITMENTS AND CONTINGENCIES

Headquarters

During April 2003, the Association entered into a lease agreement for new office space. The Foundation occupies certain rentable square feet of space in the new building to conduct its operations. The Foundation's proportionate share of rent totaled \$15,773 and \$15,518 during the years ended December 31, 2014 and 2013, respectively.

Defined Benefit Plan

The Association sponsors a noncontributory, defined benefit pension plan that covers all eligible employees. The Foundation's employees are covered under this plan.

The plan calls for benefits to be paid to eligible employees at retirement based primarily upon years of service and compensation rates near retirement. All costs of providing these retirement benefits are currently reflected on the Association's books and records.

The Association froze the defined benefit plan as of March 31, 2012, after which eligible employees ceased accruing benefits. Effective April 1, 2012, no new participants can be admitted to the frozen plan.
