Test Content Outline  
Effective Date: March 14, 2019  
Adult-Gerontology Clinical Nurse Specialist  
Board Certification Examination

There are 175 questions on this examination. Of these, 150 are scored questions and 25 are pretest questions that are not scored. Pretest questions are included to determine how well these questions will perform before they are used on the scored portion of the examination. The pretest questions cannot be distinguished from those that will be scored, so it is important for a candidate to answer all questions. A candidate's score, however, is based solely on the 150 scored questions. Performance on pretest questions does not affect a candidate's score.

This Test Content Outline identifies the areas that are included on the examination. The percentage and number of questions in each of the major categories of the scored portion of the examination are also shown. Note: The examples in parentheses are not all-inclusive and do not indicate importance.

## Assessment and Diagnosis

### A. Patient Direct Care

**Knowledge of:**
1. Normal age-related changes
2. Pathophysiology across the lifespan (e.g., etiology, presentation, risk factors)
3. Individual Determinants of Health (e.g., aging, genetics, developmental, stress)
4. Environmental determinants of health (e.g., socioeconomic, cultural, geographic)
5. Abuse and neglect

**Skill in:**
6. Comprehensive assessment
7. Problem-focused assessment
8. Diagnostic testing (e.g., laboratory, radiographic, physical, psychological)
9. Differential diagnoses

### B. Nursing and Organizational Systems

**Knowledge of:**
1. Nursing theories

**Skill in:**
2. Ethical health care practice (e.g., confidentiality, capacity, futility, consent, assent)

## Planning and Implementation

### A. Patient Direct Care

**Knowledge of:**
1. Pharmacotherapeutics
2. Polypharmacy
3. Substance use disorders
4. Family and caregiver roles
5. Palliative and end-of-life care
6. Care transition and coordination

**Skill in:**
7. Pharmacologic interventions
8. Non-pharmacologic interventions
9. Complementary and alternative therapies
10. Patient, family, and caregiver education, coaching, and advocacy

### B. Nursing and Organizational Systems

**Knowledge of:**
1. Adult learning theories
2. Information technology (e.g., informatics, telehealth, patient portals)
3. Change management (e.g., communication planning, stakeholder buy-in, resource access)
4. Educational initiatives (e.g., design, development, delivery, evaluation)
Skill in:
5. Coordination of nursing and health care resources
6. Health promotion (e.g., community-based education, disease screening, wellness programs)
7. Evidence-based practice
8. Nursing and health care advocacy

III Evaluation
A. Patient Direct Care

Skill in:
1. Patient response to interventions
2. Family and caregiver response to interventions
3. Care plan modification

B. Nursing and Organizational Systems

Knowledge of:
1. Scope and standards of health care practice (e.g., prescriptive authority, licensure, certification, credentialing, liability)
2. Patient outcomes (e.g., nursing-sensitive indicators, NDNQI, HEDIS)
3. System outcomes (e.g., length of stay, readmission rate, patient satisfaction)
4. Research methodology and statistical analysis
5. Quality and process improvement (e.g., failure modes and effects analysis, root cause analysis, gap analysis, just culture)
6. Regulatory compliance (e.g., policies and procedures, clinical practice guidelines, accreditation and regulatory standards)

Skill in:
7. Organization and systems leadership
8. Health care business and finance
9. Professional development of health care team members (e.g., continuing education, role-modeling, mentorship, coaching, preceptorship)
